

ALM - Behavioral Healthcare Mirror

- Ligature resistant
- Vandal resistant
- ISO EN 19712-3-2007 rated 5 for durability, stain resistance, cigarette burns etc
- Hygienic and easily cleaned
- Proven long-term product life

DESIGN

The Wallgate by Intersan high security mirror is made from tough polycarbonate encased in highly damage resistant composite solid surface polyester resin. Manufactured as part of Wallgateby Intersan's secure range of sanitaryware, the ALM Mirrors are ligature-resistant and vandal-resistant, and are tested and approved to the highest standards.

The standard ALM-02 and ALM-03 models are intended for "through-wall" installation, where mounting hardware (fixings) are provided. In these two models, holes are drilled through the wall, and the mounting bolts thread into the back of the mirror bezel, and extend through the wall, and are secured from behind the installation wall with washers and bolts.

Snake-eye surface mount installation method: Both mirror models shown above are now available in a front-mount installation method that eliminates the need for a chase or duct space behind the installation wall. The ALM-02FF and ALM-03FF Surface Mount Mirror models are provided with predrilled bezels, and "snake-eye" style security screws are provided that allow installation directly to a wall, eliminating the need for access behind a wall to complete installation.

MODEL SELECTION

Base Model (must specify)

- | | | |
|--------------------------|----------|--|
| <input type="checkbox"/> | ALM02 | Shelf (W9 7/8" x H13 1/4") - Through the wall mount |
| <input type="checkbox"/> | ALM02-FF | Shelf (W9 7/8" x H13 1/4") - Front wall mount |
| <input type="checkbox"/> | ALM03 | Shelf (W19 5/8" x H25 5/8") - Through the wall mount |
| <input type="checkbox"/> | ALM03-FF | Shelf (W19 5/8" x H25 5/8") - Front wall mount |
